LDO 6330 (AVIATION MAINTENANCE)

DESIGNATOR DESCRIPTION

Aviation Maintenance Limited Duty Officers serve as officer technical managers in the field of aviation maintenance. They plan and supervise the execution of aviation maintenance programs at the organizational, intermediate, and depot levels; develop quality assurance standards and procedures to ensure flight safety and proper material condition of aircraft; develop and administer programs for the development, testing and evaluation of aircraft maintenance systems and methods; develop, review, and verify aircraft maintenance logs, records, and reports; analyze new developments and technological advances in aviation maintenance; and administer aeronautical material procurement programs.

They may serve as, but are not limited only to serving as, aircraft branch and division officers, maintenance/material control officers, quality assurance officers, aircraft assistant maintenance officers, aircraft maintenance officers, Officers in Charge, Executive/Commanding Officers both Aviation and Major Command, in various operational and staff billets.
