LDO 6320 (AVIATION OPERATIONS)

DESIGNATOR DESCRIPTION

Aviation Operations Limited Duty Officers serve as officer technical specialists in air antisubmarine warfare. They assist in the organization, supervision, and direction of tactical support center (TSC) operations, brief and debrief operational flight crews, evaluate and determine in flight operational efficiency of sensor system components and ASW sensor operators; supervise preflight, in flight and postflight inspection of ASW equipment; devise and implement operational planning requirements for fleet staffs. They employ a broad knowledge of the characteristics and employment of U. S. and foreign submarines, warships, small craft, and merchant ships and principles of radar magnetic detection, electronic countermeasures, and underwater acoustics.

They may serve as, but are not limited only to serving as, tactical support center and naval facilities officers, Officers in Charge, Executive/Commanding Officers both Aviation and Major Command, in various operational and staff billets.
